NEWSLETTER

NOVEMBER 2002 ISSUE #20

PRESIDENT'S REMARKS

I will start off with a personal note for this issue. Clayton and I celebrated our 50th wedding anniversary on September 23rd. Along with the friends and relatives who enjoyed the day with us were fellow collector **Ray Moritz** and his wife, **Peggy**, who drove up from Kansas City.

Another personal note regarding our Treasurer, **Evelyn Grosklau**: her parents were injured in an auto accident and she has been with them these past weeks. Her husband Gary has been helping out with the Chapter's business while she is away. We all wish her folks a speedy recovery.

Now onto the news on Silver Strikes: we have been fortunate that one of the newest casinos in Las Vegas has put in strike machines. The Palms has four \$10 strikes and one \$200 strike currently in play. We can hardly wait to get out there and try our luck at winning this set.

It may be me but it seems like there is a lot more trading going on among the strikers than it used to be when we first started the Chapter. I know I did two trades this month plus selling a few of our duplicates. I did trade for one of the Riviera holograms so now I have one from Kansas City, one from Reno (I think everything in my collection is packed at this time) and now one from Las Vegas. They make an interesting addition to the silver strike collection. But let's face it, I have always been intrigued by holograms.

I know it is still early but now is the time to think about doing a silver strike display for the 2003 convention. Hopefully there will be several displays so that the Silver Striker Chapter is well represented. Last year, **Peter Van der Kar** did us all proud by having his display earn first place. Displays are a learning experience-not only for the individual creating them but for the rest of us reading about a specific casino's issues, etc.

Another thing to think about is volunteering for any committee that our new president will be starting, for taking a turn at the table during the convention and anything else that comes up. You are all such a great group and I have been proud to be your president for these last 3 ½ years.

NEW SERIES INTRODUCED AT CAESAR'S TAHOE

Caesar's Hotel and Casino at Lake Tahoe have brought the silver strike collectors several great strikes over the years. Remember the \$200 Cleopatra which sold to a collector for about \$10,000! This is the casino that brought us the only Hot August Nights strike (2001-ltd. 1000) issued. Also last year, Caesar's introduced a new series of strikes, including a delightful concept of "four in one," where the four regular silver strikes were summarized on the limited issue (777) strike. It was the first time the number of mintage amounted

to "777." Both the Hot August Nights and "four in one" strikes were in the finalists for "Silver Strike of the Year 2001." The \$200 strike is in the Hall of Fame!

A creative management has found several ways to satisfy the appetite of the collector, as well as, create the special souvenir for the tourist. Now, Caesar's has done it again, introducing five new strikes, one being limited to "777" in quantity. The new issues depict various outdoor action sporting opportunities found at Lake Tahoe. Skiing, hand gliding, snow boarding and rock climbing are represented in fresh artwork. The limited issue is once again a "four in one" strike showing the four sporting topics. There are two of the limited strikes in each fill of fifty which makes them a challenge to obtain but worth the effort.

The new strikes are to be in the machines by December. All of the previous series will be retired and only the new ones in the machines. There are two machines in play at Caesar's, so bring a friend.

PATRIOTIC STRIKES KEEP GROWING IN NUMBERS!

The patriotic theme continues to expand its availability. Since September 11, 2001, our country has rallied to the support of the concept of patriotism in America. Four \$200 strikes have been introduced from the following Las Vegas Casinos: Palms, Plaza, Flamingo and Slots-A-Fun.

In addition there have been 59 \$10 strikes make the scene thus far: 4 from the Plaza, 2 from the Las Vegas Club, 4 from the Gold Coast, 3 from Bally's, 2 from the Imperial Palace, 5 from the Barbary Coast, 3 from the Paris, 2 from the Orleans, 2 from the Golden Nugget, 2 from the Flamingo LV, 3 from O'Shea's, 6 from the Silverton, 5 from the Luxor, 4 from the Slots-A-Fun, 4 from the Suncoast, 4 from New York New York, 3 from the Sundowner Reno, 1 from the Sparks Nugget and 1 from the Peppermill Reno.

DID YOU HEAR?

Sparks Nugget is going to put into play a new \$10 and \$200 silver strike in early Dec. They both will feature the famous Golden Rooster. The \$200 will be available for ANY 20-Nugget \$10 strikes.

Four Queens in Las Vegas is interested in putting back their strike machines BUT there are no machines available at this time.

Sierra Sid's is planning to offer a \$200 silver strike soon depicting the Reno Arch. They can be obtained by trading 20 of the 2001 or 2002 series. They are planning on introducing a new \$10 strike, which will be the artwork of the pony express rider as found on last year's one pounders.

Boomtown, Verdi, Silver Club, Sparks and Mandalay Bay, LV, are to pull their machines or have pulled them.

Mr. B's, Mill City, new strike with a covered wagon by mid-Nov.

Silver Legacy in Reno issues 7th anniversary has a new look – the Hotel.

Mirage in LV has 7 machines – 3/\$10 strikes and 3/\$40 strikes! Takes 20-\$10 strikes to trade for the \$200.

Slots-A-Fun has introduced 4 new \$10 strikes and a \$200, which can be obtained by the 20 for 1 program.

The total minimum silver strike order for a casino from IGT is: 1750 strikes for a \$10 and 250 for a \$200. Otherwise, the casino pays die charges.

NEW SILVER STRIKE MACHINE

IGT (international Gaming Technology) debuted the next generation of Silver Strike Machines at the 2002 Global Gaming Expo held this past September in Las Vegas. All of those who attended had the chance to see, touch, feel and play the new machines. The new machine is built on IGT's S2000 model slot machine. We have all seen this model; it is the one with the little (about 2 inches square) "bunny ears" speakers attached on the side of the machine just above the reel level.

The overall display has the new machine placed on a black pedestal, a four/six inch chrome tube on each side extending from the base to up above the machine supporting another black box on the top. The upper box contained an electrical display sign telling what the machine was and on top of the upper box were two large (about 10/12 inches in diameter and 4 inches thick) rotating Silver Strikes models.

The machine itself looks like any other reel machine from the bottom up to the top of the reels. Just above the reels is the top of the main case and from this point is an all-new upper case housing the displays and prize dispensing mechanism. I say prize because this is a generic machine designed to be used in dispensing prizes, not just strikes but possibly many different prizes. With different markings it may dispense jewelry, pins, lighters, etc., items other than strikes.

The upper case is almost as big as the lower case. In the middle at about eye level of the upper case is the dispensing mechanism, which is a 12/14-inch diameter 15/18-inch tall vertical cylinder that rotates when you win. The rotating cylinder contains six vertical 3-inch tubes, which hold the prize containers, now know as "Hockey Pucks". Each of the six 3-inch tubes holds 16 prize containers. Each 3-inch tube has an opening running top to bottom so you can see how many prize containers remain in that tube. Each tube has a display window above it displaying what is in the prize containers in that particular tube. All of this mechanism is behind a curved piece of glass (plastic?) so you can see it turn

and dispense the prize container. When you win a catchy tune starts playing and the cylinder starts turning. After one or two rotations the cylinder will stop with one of the 3-inch tubes facing the front of the machine. At this point the music stops, a drum roll starts and the mechanism starts dropping the container out of the tube. The container drops into a slot below that is designed to allow the container to slide out to the front where the player can retrieve it. The audible drum roll is timed so that it reaches it's crescendo just as the container appears in the retrieval slot. On each side of the curved glass are three more, total of six, display windows showing what is in the prize containers. The entire display is very impressive, looks very good and was liked by all that studied it. The machine is labeled a Silver Strike machine. The reels contain the words Silver Strike and when you line up three Silver Strikes you are a winner. The colors are black, royal blue, silver, chrome and white with heavy use of lights.

Everyone I spoke with felt the new machine looked great, was a good start and would be a welcome change. The trial machine did not have all of the features that we strike collectors have come to expect. This machine was not set up to offer multiple payouts. IGT has thought about making it such that the player could select from which tube they wanted the prize dispensed. The hockey puck container will not fit in well with the collector, it needs changes, you can not see both sides of the strike while in the unopened container, storage will be a bigger problem and it will be harder to ship.

The new machine as seen at the Gaming Expo was a generic prize-dispensing machine but **IGT will make some modifications so it can be a strike specific dispensing machine (no puck holder).** I think it is very doable and everyone had ideas on how to make it better. Now we'll just have to wait and see what the final product looks like.

THE NEW \$10'S

THE NEW \$40'S

THE NEW \$200'S

THE \$200 SILVER STIKE BECOMES A STAR

Silver strikes began their existence in 1992 with a few machines, which dispensed a silver \$7 token as a jackpot prize. They proved to be an accounting nightmare so in 1994, the \$10 silver strike came onto the scene. These strikes were and are the prize of a 25-cent machine. In 1995, a \$5 per pull machine was introduced in five Nevada casinos: Bally's, LV; Eldorado, Reno; Harrah's, Lake Tahoe; Fitzgerald's, Reno and the Imperial Palace, LV. The players quickly became far and few but Caesars at Tahoe thought maybe their high rollers would go for the \$200 strike. After only a couple of months, that machine was also pulled and the remainder of the shipment returned. The other casinos sold off their remaining inventory at the cashier's cages. The Eldorado had two different designs produced before they called it quits; a walking eagle and the Brew Brothers. Bally's had a die change, which resulted in two distinct varieties.

That's the way it was up to 1998, when the Imperial Palace had the idea of trading 20 \$10 strikes for a \$200. At the end of 1999, the Eldorado produced \$200 strikes and sold them through their gift shop for \$375. This was not the use the Gaming Commission envisioned for these tokens, and after only one shipment of 25 strikes in 2001, this concept was discontinued.

In 2000, the Union Plaza, LV, adopted the concept of the trading of 20-\$10 strikes for the \$200. In 2001, the Las Vegas Club; Oshea's, LV; and the Flamingo, LV joined the Plaza and adopted the same concept. At this point it would take 17 strikes to have a full collection.

Additional strikes were issued in 2002 by: the Flamingo, LV; the Union Plaza, LV; Slot-A-Fun, LV; Mirage, LV; Las Vegas Club; and the Palms, LV. There will be a second \$200 strike from the Palms. All await the issuing of \$200 strikes from: Sierra Sid's and the Nugget in Sparks.

NOMINATIONS ARE NOW CLOSED

GETTING TO KNOW THE NOMINEES

FOR PRESIDENT:

Hello everyone, my name is **Don Nesbitt**. I would like to take this opportunity to introduce myself. I am a Charter Member of this great Chapter of ours. I have been collecting silver strikes since 1996. I started off by collecting strikes from the casinos I visited. I have traveled this great country of ours in search of strikes. I started with Nevada strikes and then added Louisiana, Mississippi, Missouri and Illinois. I then started trading and buying strikes, and now collect strikes from all locations and in all denominations. I have spent countless hours doing research on strikes and searching for strikes to add to my collection. I sure do enjoy this great hobby. I work full time for a fire equipment company inspecting and servicing fire equipment. I am a member of one of the world's oldest non-profit charitable organizations providing help and services to the community. I am also involved in my local community as an elected member of our local Fire Department's Board of Directors. We oversee the Fire Department's half million dollar annual budget. I am also a State Certified Peace Officer and serve as a Reserve Corporal Deputy Constable. I am in charge of a squad of reserve deputies assigning their duties and overseeing the work performed as is required. I have attended all of the conventions since the Chapter was formed and I look forward to them every year. During this past Las Vegas Convention I talked to our current President Mary Lou Waterbury about running for office. I also talked with 2nd VP Jack Haddock about running and subsequently I was nominated by Jack to run for the office of President. I proudly accepted the nomination. I would like to come up with a plan to promote our hobby to the casinos in an attempt to get silver strikes installed in more locations and in greater supply. A large number of casinos outside of Nevada have removed their strike machines. I would like to see this trend reversed. I would like to see our membership grow to allow us to have the strength to meet more than once a year and possible have an end of the year mini convention. I would like to keep the news flowing to the members by having more members involved with the newsletter and by expanding our online presence. These are just a few of my ideas. If you like the ideas I have put forward please vote for me. I thank you for your support.

Member CC & GTCC # R-4244, CHSS # 44

FOR TREASURER:

My name is **Ed Ciesla**. I am a CPA and have over 20 years experience in the accounting and tax areas. I collect silver strikes only from Nevada and I do collect all denominations. I have been collecting for over 5 years and was lucky enough to get in when the hobby was just starting. I would like to see the Chapter grow and with new members to see the entire hobby grow as well.

Ed Ciesla

Member CC & GTCC # R-3524, CHSS # 40

FOR SECRETARY:

My name is **Sharon Pamperin**. I was just sitting there at the Silver Strikers Meeting during the convention in June, minding my own business, basking in the glow of having just won an award for recruiting the most new members when HE approached me. HE is the current secretary of our Chapter. HE started talking very fast, trying to convince me what a wonderful position this is and how much I would enjoy being secretary for the next term. It took me about ½ minute to agree to give it a try.

I started collecting Silver Strikes and chips about eight years ago. I love a lot of everything but I do like Nevada strikes the best. I especially enjoy the older ones. I am currently treasurer for our local citizen's Police Academy Alumni and have held that position for the past three years. I am retired from a retail paint and decorating business that we own and I managed for the past twenty years. My husband, Ted, is our Village President, which is the same as a mayor of a city. He also is a collector but his first love is coins.

If I am elected to be your Secretary I promise to do the best I possibly can to promote our hobby, keep you all informed about our organization and bring new ideas to the Board and Membership.

Sharon Pamperin

Member CC & GTCC # 2635, SS # 170

FOR 1ST VICE PRESIDENT:

My name is **Kevin Pyles** and I am a candidate for the position of 1st Vice President. I am currently the Membership Officer for the Silver Strikers Chapter. I offered to help out with the position when our President asked for volunteers. The Board Members have added the responsibility of membership to the position of 1st Vice President. I have enjoyed doing the membership role and am interested in continuing to do it so that is my motivation for running for 1st Vice President. I would like to see our Chapter continue to grow as it has. We had a great year last year adding new members. We are off to a great start this year.

I have been collecting Silver Strikes since my first trip to Las Vegas in 1995. I collect all denominations and from all casinos that have ever had them. I am a Charter Member of the Silver Strikers Chapter and I am also a member of the CC & GTCC. I live in the Northwest suburbs of Chicago and work as a

computer technician. I have a background in working with records, which helps me keep the membership information in order.

Kevin Pyles

Member CC & GTCC # R-3613, CHSS # 87

FOR 2ND VICE PRESIDENT:

My name is **Jerry Weisenbacher** and I'm currently running for the position of 2nd Vice President of the Silver Strikers Chapter. I'm a member of the CC & GTCC, The Silver Strikers Chapter and have been the Chapter Newsletter Editor for 1½ years now. I come from a background in retail banking for 17 years followed by 7 years in hospital administration and reside in Sarasota, Florida. Unfortunately not the gaming capital of the world these days but we all have a cross to bear.

I began collecting \$10 strikes after my first trip to Las Vegas in 1999 and became totally immersed in the hobby immediately. My initial goal was to collect at least one strike from every location that has ever issued a \$10 piece and as of today have narrowed that "need list" down to three locations. Since the initial interest I have added various denominations and multiples from each location. It can become a very consuming hobby as I have discovered. Relaxing, challenging, exciting and of course the opportunity to make new friends all over the country.

My objectives in seeking this position are; to see us as a group become a more viable factor within the collecting community, foster closer relationships with our members, utilize the knowledge and talent of the veteran collectors to help the novices learn and avoid mistakes, create a large network of issuing casinos throughout the US, create a more professional image of our Chapter via enhanced Internet usage, perhaps making the Newsletter available via email and most importantly, listening to the feedback from our Membership. We are here for the Membership, their needs and whatever we can do to assist them in developing greater skills in this terrific hobby. With everyone's input and ideas we can make this a truly enjoyable hobby and one we can all be proud of. I ask your support and pledge to do all that I can to make us all proud.

THE .999 "ON THE RIM" ERRORS

In the latter part of 1996, the Nevada Gaming Commission required that the .999 silver designation on silver strikes be placed on the silver center of the token. Before that date, the .999 designation was found on the brass ring. The commission felt that this was misleading to the public and, hence, the change. As a result of this change, there has been 3 silver strikes issued with the .999 on the rim producing an interesting error.

San Remo, LV	Millennium	issued 1999	value \$400+
Reno Flamingo	Tiger	issued 1998	value \$100+
Riverside, Laughlin	Laughlin (98-99)	issued 1998	value \$1000+

Keep your eyes open as who knows if there is another one of these errors out there. Not many of any of these!!
