Each coin is sculpted in amazing detail by acclaimed artists. A series of four models and molds are made for each coin. The molds require refinement and precision sculpting so that the finished die will capture all the detail and emotion of the original. Each coin is struck from .999 fine silver. The silver is subjected to temperatures in excess of 2,900°F, to assure purity. The silver is formed into 20ft. strips and precision blanks are punched out, to assure accurate weight and size. Finally, the blanks are struck by a special press with 180 tons of pressure and then polished to a brilliant shine. Your coin has been minted using the same process that the United States Mint uses to make our country's currency and medallions.

Certifica

...Henry Morgan, an English
privateer of Jamaica, atta
stronghold of Portobello in Panama in 1668. A Quarter million pie
rum as well as much other booty, was carried back to Port Royal, Jamaica
Runners. These rum runners were both privateersmen as well as skilled sailo
seas and rocky inlets, made the difference between delivering the rum and carg
pirates. Later these same ships were used to carry slaves and native women t
world.
