

A Division of The Money Company

I want to thank you for your interest towards the announcement advertisement of our Native-American series of coins in Numismatic News.

To send you as much information about this new program as possible, I am enclosing two items. The first is a full-color catalog illustrating the entire series. As the coins will be issued one a month for 36 months, the issue date for each coin is shown in the brochure. As listed in the second publication we are sending you, these coins are struck in the finest proof quality of pure .999 silver in 24kt. gold EP. It is also important to note here that if you subscribe to the entire monthly series, you will receive with the 36th coin at no additional cost a deluxe album that displays the entire series.

Our series of Native-American coins have been minted in the silver strike format which features a pure silver center with a golden band around. To date, all silver strikes have been monetary tokens primarily, but not exclusively, in Nevada. This is the first legal tender coin issued in the silver strike format, so it is of great interest to the club which I am a member of.

There is considerable information in this paper about the series not contained in the brochure, which is why I am sending it to you. The publication includes an order form or if you prefer you can place an order with us by phone. We are open from 10am to 4pm PST. Please let me know if you have any questions not answered by the enclosures and I hope you will find this coin series as interesting and significant as we do.
